

VDSTS Professional Software Installation

DO NOT DISASSEMBLE CABLES!

Each cable has been assembled for each specific product.

- 1) Insert CD-ROM into your CD-Rom driver of your computer
- 2) Run the Setup.exe and follow each step for installation.
- 3) Insert the hardware key (USB Fig2. or Parallel Fig 3.) into your computer Fig1.
- 4) Run the program VDSTS.
- 5) Select the target bike ECU.
- 6) Select the correct communication serial port from the computer. If computer does not have a serial port, a USB to Serial Port Adapter is needed manufactured by KEYSPAN.
- 7) Connect the vehicle interface cable to the serial port.
